ALL FOR GLENN.

R. B. Glenn is the Democrats' nominee for Governor of North Carolina. And now with the universal sentiment throughout the State that all four of the candidates before the convention are able men and that any one of them would make the State a good and wise Governor, all turn together to give Glenn hearty support. And it is the part of true Democrats to make the support as hearty as it can be and every one had secured the man of his choice. Thus the Democrats of the State will do, and the vote in November will be, or ought to be, just as large as if there had been only one candidate.

It has been said that the party workers throughout the State, or a majority of them, favored Stedman and that Glenn's nomination was due to the preference of the rank and file of the people.

If, then, the people nominated Glenn, it will be the most becoming consistency for them to rally every man from now until election day and make the vote the very largest possible. These observations apply to Halifax county especially.

The feeling is general that if there had been a primary vote in the county, Glenn would have received perhaps half the votes in the county—certainly a much larger vote than he did receive. The Stedman men propose to do as good work for Glenn as they would have done for Stedman had he been nominated. This will be right, and the Glenn men in the county cannot afford to let any others outclass them in persistent work to bring out a full vote.

The Democrats now must work together in union and solid support of the man chosen by that great convention as the next Governor of North Carolina.

GOOD CAMPAIGN LITERATURE.

Representative Claude Kitchin has been paid a high compliment at the hands of Chairman Cowherd, of the congressional campaign committee. For in casting about for campaign material the chairman chose Mr. Kitchin's speech in its entirety as a campaign document. This speech gives an exceedingly clever analysis of the character of the man Roosevelt. It shows the inconsistencies of the man. It shows his whims and vagaries. It shows how he is a "flea in the ear" of the people, and what they have for a chief executive, anyway. People will begin to ask what difference there really is between a "fraternal Texas pony" and the white women of the South, and whether or not Roosevelt is able with his high spun theories, to draw the distinction.

Another Congressional speech that was chosen today to be used as a campaign document was the speech on the tariff, delivered by the talented leader, John Sharpe Williams, of Mississippi. These will make two strong campaign documents.

RYDALES TONIC

A New Scientific Discovery
for the
BLOOD and NERVES.

It purifies the blood by eliminating the waste matter and other impurities that infect the blood. It builds up the blood by restoring and multiplying the red corpuscles, making the blood rich and red. It restores and stimulates the nerves, causing a full free flow of nerve force throughout the entire nerve system. It specially cures unstrung nerves, nervousness, nervous prostration and all diseases of the nervous system.

MALARIA.

RYDALES TONIC is a specific for all forms of Malaria. It acts on a new principle. It kills the microbes that produce Malaria. The cause being removed the disease quickly disappears. RYDALES TONIC is guaranteed to cure the most obstinate cases of Malarial Fever, Chills and Fever Ague, etc. We authorize all dealers handling our remedies to refund the purchase price for every bottle of RYDALES TONIC that does not give satisfaction.

CHARLOTTE DRY.

The liquor fight in Charlotte terminated by Tuesday's election in a victory for prohibition. The vote for saloons was 545, for dispensary 68, for prohibition 1,027. Majority for prohibition 482.

MANY LIVES LOST.

Under date of July 4th the appalling news came from London that nearly seven hundred lives were lost in the Atlantic about 290 miles from the British mainland. They were Danes, Norwegians, Swedes and Finns coming to join relatives and friends in America. They were on the steamer Norge which struck a rock, and soon of the eight hundred or more passengers only one hundred and thirty were saved.

Wood's Seeds.

Crimson Clover

Sown at the last working of the Corn or Cotton Crop, can be plowed under the following April or May in time to plant corn or other crops the same season. Crimson Clover prevents winter leaching of the soil, is equal in fertilizing value to a good application of stable manure and will wonderfully increase the yield and quality of corn or other crops which follow it. It also makes splendid winter and spring grazing, fine early green feed, or a good hay crop. Even if the crop is cut off, the action of the roots and stubble improve the land to a marked degree.
